Subject: Microsoft Settlement

I have read and listened to the pros/cons of the proposed Microsoft Settlement, and am NOT in favor of it. It must be amended.

The settlement does not, in any way, penalize Microsoft for its past transgressions of the law. For many years, OEMs have been under control of this corporation and will continue to be unless a meaningful and just penalty is adjudged. Microsoft has been declared guilty of past wrongs for the second time, and must now be held accountable in some measure.

As you can see I believe that the current proposed settlement is unacceptable.

Thank you for your time.

Sincerely,
Robert Bryant
